Secureworks® | **SentinelOne®**

SentinelOne and Secureworks

Combining the Power of Two Cybersecurity Leaders to Offer Unprecedented Protection and Cyber Defense

- ✓ Two Cybersecurity Champions
- 🛡 Two Best-in-Class Technologies
- ⬡ **One Fully Integrated Solution**

A Winning Combination

SentinelOne® and Secureworks® have joined forces to address one of the biggest challenges facing every organization today: cybersecurity threats. As security teams face growing attack surfaces and a growing talent shortage, they need solutions that are purpose-built to address these gaps in their cybersecurity strategy.

The combination of **SentinelOne Singularity™ Complete and Secureworks Taegis™ ManagedXDR** brings unprecedented protection, superior detection and unmatched response — all at a competitive, industry-leading cost.

The built-in integration enables you to improve cyber defenses by incorporating best-of-breed endpoint data from SentinelOne into an overall view of network, identity system, cloud, and other apps from Taegis, yielding a holistic view of your attack surface, and applying detection and response actions to drive the best outcomes. Leveraging the combined architecture, Secureworks offers 24/7 threat monitoring, detecting, and response, serving as an extension of your cyber team. This seamlessly integrated solution optimizes security investment while also future-proofing for maximum ROI.

Real Customer Value

We know how difficult it is to detect threats and respond effectively without the right technology, expertise and resources. Bringing together two best-in-class cyber security solutions in one fully integrated solution can enable outcomes you desire around risk and resiliency.

KEY CUSTOMER BENEFITS

- Predictable pricing for MDR and endpoint security
- 24/7 MDR on leading endpoint and XDR platforms
- Enrichment by two threat intelligence teams
- No vendor lock-in with complete scalability
- Coverage across both IT and OT infrastructure
- 1-year data retention included

Reach out to your sales representative to learn more about how this cybersecurity force multiplier brings together the endpoint protection and an open, powerful platform with extensive security expertise for 24/7 managed detection and response.
