# Secureworks Taegis Platform

Stop cyberattacks before they begin with superior detection and unmatched response
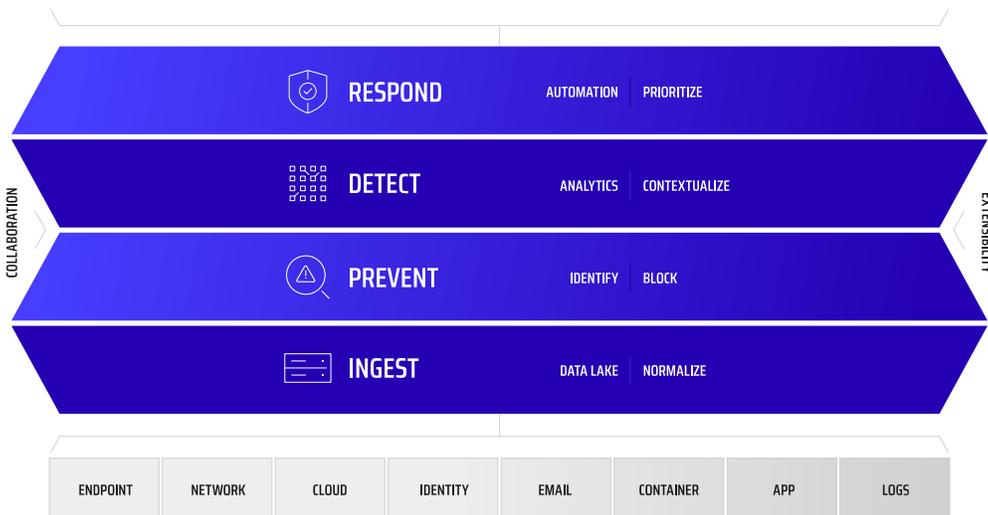

Organizations of all sizes are facing growing security operations challenges such as limited attack surface visibility, time, and resources. Built on over two decades of real-world threat intelligence and research, the Secureworks® Taegis™ SaaS-based, open XDR security platform is designed to meet today's security's challenges with superior detection, unmatched response and an open platform that integrates hundreds of leading technologies to deliver higher ROI. Taegis solutions include Extended Detection and Response (XDR) with Taegis™ XDR, Managed Detection and Response (MDR) with Taegis™ ManagedXDR, Vulnerability Management with Taegis™ VDR, and continuously curated threat intelligence to reduce risk, optimize existing investments and fill talent gaps.

Unlike other solutions, Taegis is designed for collaborative investigations and full attack surface visibility. The Ask an Expert feature provides direct access to security analysts in less than 90 seconds from within the Taegis console for unmatched response time and expertise.

## Secureworks Taegis Platform and Products

Secureworks Taegis Platform and Products diagram showing Taegis™ XDR, Taegis™ ManagedXDR, and Taegis™ VDR on the Taegis Cloud-Native Security Platform. Layers: RESPOND (AUTOMATION, PRIORITIZE), DETECT (ANALYTICS, CONTEXTUALIZE), PREVENT (IDENTIFY, BLOCK), INGEST (DATA LAKE, NORMALIZE). Flanked by COLLABORATION and EXTENSIBILITY. Data sources: ENDPOINT, NETWORK, CLOUD, IDENTITY, EMAIL, CONTAINER, APP, LOGS.

## SAMPLE CUSTOMER BENEFIT

**Global Aviation Company**
**Savings of $500K per year** by avoiding the expense of hiring and retaining a security team for 24/7 monitoring

**Cost avoidance of $1.6M per year** by protecting the organization from breaches

**Protecting profits of about $2M per week** by preventing cyber attacks from taking down 75 production lines

**Reduction of cyber insurance by 5-10%** through reduction of risk

# KEY BENEFITS

## Superior Detection

Detect more threats that matter with single-pane-of-glass visibility and comprehensive attack surface coverage. Taegis aggregates network, cloud, endpoint, email, identity and vulnerability data with curated threat intelligence and signals from your existing security tools, helping you detect, understand, and stop sophisticated attacks. Your analysts can spend less time dealing with false positives and more time addressing real threats.

> **Secureworks has eliminated the noise from too many noncritical alerts compared to what I was getting with my previous provider. We have gone from 30 critical alerts to 1-2 a month.**
>
> Busy Beaver

## Unmatched Response

Taegis leverages AI, automation and hundreds of third-party integrations to help your security operations team accelerate investigations and incident response, reduce dwell time and rid them of repetitive and error-prone manual tasks. Analysts can reach a Secureworks expert within 90 seconds directly from the Taegis console and collaborate on investigations, even if your organization does not employ our MDR solution. Taegis boosts productivity and helps your staff spend more time on high-value work.

> **Our experience with Secureworks Taegis has been world class. Having the global SOC available 24/7 as an extension of our security team along with around-the-clock monitoring of our alerting has drastically improved our response capabilities.**

## Open Without Compromise

Taegis is an open platform that integrates seamlessly with existing products, providing a comprehensive, vendor-inclusive approach to threat detection that delivers better visibility across your entire attack surface by integrating threat information from your existing and future security investments. With Taegis, you can reliably collect, store, and access events, alerts, and logs from a variety of data sources, amplifying alert investigations, threat hunting, and reporting.

> "
> **Taegis is very easy to use. I really like the way the user interface is designed and how easy it is reach out to someone from the SOC team within a few clicks on the Taegis platform. It is reassuring to have the ability to reach out to the SOC team quickly and clarify any security issues or concerns.**

> Hyde Housing

## See Better Security Outcomes and Higher ROI

As a security leader, you have finite resources to protect your expanding attack surface from progressively sophisticated threats. Taegis continuously interprets telemetry across your IT environment, applying advanced analytics to automatically prioritize and turn alerts into signals, helping your team respond to serious threats faster. With Secureworks, you can empower your team with Taegis XDR, leverage our expert SOC analysts in a way that best suits your needs, or leverage our leading incident response and adversary services to respond to threats, remediate incidents, and ultimately bolster your security posture.

> "
> **If you're looking for a security provider, you should really look at Secureworks. It's been a fantastic partnership that we've had over the years, and I really feel like I have a friend that I can reach out to at any time to help us.**
